

Mint Hill Police Department

Alcohol is the *NUMBER ONE*...

- Alcohol is the number one drug of choice for teenagers.
- Alcohol-related car crashes are the number one killer of teenagers in the United States.
- Alcohol is the number one drug problem in America.
- If you think it can't happen to you, look around. Check your schools' yearbooks for the last ten years. How many have been dedicated to a student who was killed in a drunken driving crash?
- Ask your friends how many people they know who have had bad things happen to them when they were drinking.
- You don't even have to be the one doing the drinking - most teenage passenger deaths are the result of alcohol-impaired teenage drivers.
